Haseeb Shahzad

Main Rezaabad, Faisalabad | 03160283071 | Haseebshahzad831@gmail.com | [GitHub](#) | [LinkedIn](#)

Profile

Highly motivated Data Analyst student with a strong academic background in data analysis, statistics, and computer science. Proficient in data visualization, statistical software, and programming languages (Python, R, C++, SQL). Skilled in data manipulation, analysis, and interpretation

Education

BACHELOR OF SCIENCE IN DATA ANALYTICS | 7TH SEM | GOVERNMENT COLLEGE UNIVERSITY FAISALABAD (GCUF) | 2021-2025 (EXPECTED) CGPA: 3.19

Experience

DIGITAL SOFT COMPANY | JULY 7, 2023 - NOVEMBER 12, 2023

Frontend Developer Intern

- Developed responsive and visually appealing web pages using HTML, CSS, and Bootstrap
- Utilized Sass to write efficient and modular CSS code
- Implemented interactive client-side functionality using JavaScript
- Built and maintained responsive designs across various devices and browsers
- Collaborated with team members to complete projects and resolve issues
- Gained hands-on experience with version control systems such as Git

Skills & Abilities

- Data Visualization (IBM SPSS, Power BI)
- Statistical Software (R, Python, SPSS)
- Programming Languages (Python, R, Prolog C++)
- Database Management (SQL, MS Access)
- HTML, CSS, Bootstrap, Sass, JavaScript
- Git

Projects

- **Power BI Project on (Google Play Store Analysis)**
 Developed interactive dashboards and reports using Microsoft Power BI to analyze and visualize complex business data. | [GitHub](#) | [LinkedIn](#)
- **Student Score Analyzer**
Designed and implemented a web application to analyze student assessment scores and performance, leveraging Python's Flask framework. | [GitHub](#) | [LinkedIn](#)
- **Hotel Booking Demand Prediction**
Developed a machine learning model to predict hotel booking demand based on historical data and presented insights to help hotel management. | [GitHub](#) | [LinkedIn](#)
- **Car Sales Analysis using Python**
Conducted a comprehensive analysis of car sales data using Python programming language and provided recommendations to the sales team. | [GitHub](#) | [LinkedIn](#)
- **Predicting Reviews using NLP**

Utilized natural language processing (NLP) techniques to analyze customer reviews and predict their sentiment, providing insights to the product team. | [GitHub](#) | [LinkedIn](#)

- **Python Amazon Sales Analysis**

Performed in-depth analysis of Amazon sales data using Python, including data cleaning, exploratory analysis, and visualization. | [GitHub](#) | [LinkedIn](#)

Certification's ([GitHub/Certifcates](#))

1. Programming for Scientific Research with Python and R | Provided by: Udemy
2. Learn Machine Learning Course with Python A to Z | Provided by: Udemy
3. Sentiment Analysis using Python | June 2024 | Provided by: Linkdin Learning
4. Advanced NLP with Python for Machine Learning | Provided by: Linkdin Learning
5. Career Essentials in Data Analysis | Provided by: Microsoft and LinkedIn Learning
6. AI in Cybersecurity: The Future of Red Teaming and Blue Teaming | Provided by: Linkdin Learning | Awarded on: July 12, 2024
